

An aerial night photograph of a busy port. Several large container ships are docked at a pier, illuminated by warm yellow lights from the cranes and the ships themselves. The cranes are red and white, and their lights reflect on the dark water. In the background, a city is visible with its lights, and a hill with a monument is silhouetted against the dark blue twilight sky.

***Less Than Container Load.  
More Service.***

**The EgeTrans LCL Transatlantic Service.**

## Here to help you

With over half a century of dedication to the **transatlantic trade lane**, EgeTrans is your leading ocean freight LCL provider that links Europe with North America. Benefit from a partner that combines an extensive **self-controlled trucking network** in Europe and the expertise of handling around 7,500 TEU of consolidated containers per year with the numerous values a mid-sized company is able to bring to your organization.

## Your Benefits

Work with a partner that is well known for its **high-quality logistics services** and very experienced in offering special services, such as Buyer's- and Seller's- consolidation, oversized-, non stackable-, or dangerous goods shipments.

- ▶ **Fixed weekly departures** with multiple containers per destination
- ▶ **Door-to-door service** between Europe, the United States of America, Canada and Mexico
- ▶ Control-tower setup with **designated contact persons** across all EgeTrans locations
- ▶ **Minimize your inventory levels** and improve your cash flow while using a very cost-efficient shipping method
- ▶ **Full visibility of your shipments** through milestone-tracking and automated reporting via ET Connect
- ▶ Full ability of **EDI connections** between your organization and EgeTrans through our dedicated software engineers
- ▶ Reduced risk of damage through **handling fully controlled** by EgeTrans
- ▶ **Simple and transparent cost structure** to move your FCL overflow due to close coordination between our FCL and LCL departments
